COUNCIL BRIEFS

At the regular meeting of Town Council a request for development of a family dwelling on Lot 9A, Block 23, was received from Mr. Ernest Smith and was approved by Council.

Council approved the revised plan of the proposed subdivision between Blocks 23 and 45 which will contain 21 lots -- 10 on the north side of the property and 11 on the south. Mrs. M.P. Lindgren is the owner of the property. Sewer and water installation

will go ahead as soon as the existing house on the property is moved slightly to make way for the lane and water lines.

Council passed the necessary bylaw to provide the Chamber of Commerce with a grant of \$500 for the Evergreen Rodeo parade.

Bylaw No. 500, authorizing a new business license regulation for the town, was subjected to minor revisions and given the necessary three readings.

Legion Auxiliary Marks Anniversary

Thirty one members of the Ladies Auxiliary of the Canadian Legion were treated to a delicious dinner served in the Cardium dining room on May 12th to celebrate the 10th anniversary of founding of the organization.

President Pat Jenkins welcomed those in attendance, with a special mention to Mrs. Clysta Davies, one of the charter members, who drove from Entwistle with District Commander Mrs. Stella Lorenz, to renew old acquaintances.

Mrs. Lorenz gave highlights of the Zone Rally recently held in Onoway and reminded members of obligations as an Auxiliary to the Legion to help support the men's branch in its endeavours.

After a brief business meeting the group adjourned to the Legion Hall for a social evening of cards and comradeship.

The Auxiliary once again requests the support of the general membership to attend Legion functions and assist where possible with our caterings, to more evenly distribute the work load amongst all instead of relying on the willing few who seem to

carry the greater portion of the load.

Please remember the next meeting to be held June 9th in the Legion Hall at 8:00 p.m. A special invitation is extended to all eligible ladies wishing to join the branch, who may call Mrs. Joan Hale at 542-4365, our membership chairman.

The Legion Lounge is open every Saturday night from 9 p.m. onwards. All Legion members and guests, it is hoped, will join in the friendship offered, and use the dart boards, pool tables and table tennis in the game room downstairs and the card tables and piano in the upstairs lounge.

AWARDS NIGHT AT HIGH SCHOOL

Parents and friends are reminded of the Frank Maddock High School "Awards Night" to be held this evening, Wednesday, June 3rd, at 8:00 p.m. in the Frank Maddock High School auditorium. It is hoped many will attend this important function.

CHAMBER MEETING THURSDAY NOON

A general meeting of the Drayton Valley and District Chamber of Commerce will be held at noon on Thursday, June 4th in the Cardium Room.

Among the more important items on the agenda are a report on parade progress and the selection of a new president.

RODEO HATS

Mrs. Medwed and Mrs. Burkis gave a surprise birthday party for their mother, Mrs. Walter Durham, on Friday evening. Family and close friends were the invited guests. Best wishes for many more happy birthdays, Mrs. Durham.

Bradley Lockhart has learned a painful lesson, that one simply must keep one's distance from a person swinging a golf club. A friend was doing a few practice swings when Bradley came up from behind and caught the full force of the blow across the face. Nine stitches were required to close his lip and two teeth are gone.

Little Leslie Hunter is visiting her grandparents, Mr. and Mrs. Nick Urchyshyn, for three weeks.

Mr. and Mrs. Calvin Bartlett have been visiting relatives in Salmon Arm and other B.C. points with a stop over in Calgary for a couple of days with their daughter and her family.

Mr. Henry Duginton has taken up residence on the farm for the summer and has had as his guest for the past week Mr. Merriam, of Leduc, who is 98 years young.

Best wishes for future happiness are extended to Miss Lyn Burrows and Mr. Stanley Luchak whose marriage is to be solemnized in Drayton Valley on June 6th.

Mr. and Mrs. Ernest Whitlam of Kelowna were in the district on the weekend seeing as many old friends as possible. Of special interest was news of David who is an electrician with a business of his own in Prince Rupert. The Whitlams would like to send greetings to all the friends they were unable to contact.

Mrs. Philip Smerchinski was called to Montreal on Saturday morning by the death of her mother. Please accept our sympathy Mrs. Smerchinski.

POLLUTION: Something Can be Done!

Detergents and Pollution

Editor's Note -- The following column was written by Miss Delise Stitt, B. Sc., for her Home-maker's Column in several Alberta weekly newspapers. We are reprinting it here for the benefit of housewives who may be concerned about the phosphate content of their favorite detergent.

Most everywhere we turn today we are bombarded with reports and the latest figures on pollution in Canada.

The problem is a serious one and although the federal government has promised action to "phase out" phosphate content by 1972, there are certain decisions that the concerned consumer can be making today.

These decisions have been outlined by the Consumer's Association of Canada as:

(1) Use pure soap or a low-phosphate detergent for all washing and cleaning.

(2) Experiment with amount used. In most cases substantially less than the recommended amount will give satisfactory results.

(3) Write to the president of the firm which makes the detergent you customarily use. Note your concern over phosphate pollution and request that:

* you receive information on

the phosphate content of the company's detergents.

* the percentage of phosphate be printed on the box as a guide to purchasers.

* additional funds and staff be used to speed up research aimed at finding a safe replacement for phosphates.

(4) Write to the cabinet minister responsible for pollution control in your province. State your concern and urge legislation to phase out the use of phosphates in detergents. Send a copy to the members of parliament from your riding.

(5) Write to the Honorable J.J. Greene, Minister of Energy, Mines and Resources, expressing your support of his proposed phase-out of phosphates by 1972 and send a copy to your federal member of parliament. (No postage required if addressed "House of Commons, Ottawa").

(6) Send letter as above to the Prime Minister and to your provincial premier.

(7) Urge your municipality to undertake the removal of phosphates from municipal sewage. Waste products, other than detergents, also contribute significant amounts of phosphate which can only be removed by additional treatment of sewage.

(8) Share your concern and information about phosphate pollution with friends and neighbors - enlist their support.

Here is a list of the percentage of phosphates in some popular detergents.

LETTERS

TO THE
EDITOR

Editor
The Western Review

Dear Sir:

People of Drayton Valley:

Don't you think it is time to stop using your young people as examples for the still younger people of our community. It would seem that those between the ages of sixteen to about twenty-three seem to be getting it right in the ear.

If you don't believe it, go to the courtroom any Tuesday. The only people you find there are the young ones. Why do I say this? Seemingly, for the fact that if you check a certain group of people all the time and leave alone other groups; which of two groups will end up in our courtrooms?

It has become obvious that those constantly suppressed in the forementioned age brackets resent seeing others get away with what they can not.

Drayton Valley young people are equal, if not better than other towns or cities. They do try to have a good time growing up and they also get into trouble, but forcing them to bitterness is no foothold to maturity.

Yours sincerely,
Concerned.

Editor,
The Western Review

Dear Sir:

As one who has both walked the course and also observed the local "March for Millions", I should like to add my comments to those of your correspondent who suggested that the length of the walk should be cut to 20 miles for the sake of the children.

I say, make it a 40 mile walk. No one forces the children to go further than they wish.

On the contrary, my 8 year old arrived at the 21 mile check point, thoroughly enjoying herself and was told that she, and her friends who were with her, had to quit as "they were too small". Very disappointed, she came home and played baseball for the rest of the day.

If the children get a few blisters and sore muscles we should

be proud of them for suffering a little for the sake of those who are homeless and starving and to whom pain and blisters are a part of everyday life, like it or not.

No wonder our society is becoming soft, and many of our younger generation finding escape from the discomforts of life in drugs and alcohol etc., when we encourage them to drop out when things get tough. The "March for Millions" is more than a fund-raising event. It is also a test of courage, to some more than others.

I should also like to suggest that all cash payments by sponsors be eliminated. I have heard of instances of some boasting about "how much they made out of it".

If special "Miles for Millions" cheques could be issued and filled in for the appropriate amounts by the sponsors, maybe an arrangement could be made with the banks to have these passed through free of charge.

Yours faithfully,
Another Resident.

Dear Sir:

I recently had the misfortune to spend some time in our local hospital.

I think that it is about time that someone publicly complained about the meals served. They leave a lot to be desired. To list only a few things: fish twice in one day, once was frozen fish patties; fried and dried up potatoes, three out of four meals; frozen long-johns as a dessert. What ever happened to fresh meat, vegetable and desserts. It is getting bad when we have to be ill and served all that canned and imitation food.

I have talked to a number of other people who have been in, and things were served to them, that as far as we're concerned do not meet with the price paid for a hospital bed today. I know that the situation here is progressively getting worse.

What can the ordinary person do? A good many people wonder the same.

Yours sincerely,
Former Patient

Manpower Now Recruiting Rural Clerical Personnel

An agreement was signed recently between the Alberta Government and the Canada Manpower Department for the recruitment of clerical personnel in all rural Alberta Government offices. The agreement became effective June 1st.

Under this new program Canada Manpower Centres will be assuming the responsibility for the recruiting, testing, certifying and referring of candidates in the clerical, clerk typist and clerk stenographer categories for all rural departmental supervisors or managers.

It is expected that this program will be of considerable advantage to the citizens of the province who will have their applications handled within the community by Canada Manpower and thus be eligible for referral to any Alberta Government office where a new position has been created or a vacancy has occurred.

Prior to having concluded this agreement, candidates were required to apply on specific vacancies advertised and in each instance their applications were

valid only for consideration for that particular position. Their certification through the Canada Manpower office will allow them to be continually referred on all vacancies for which they have qualifications until such time as they have located suitable employment.

Placement and referral services in the cities of Calgary and Edmonton will continue to be handled by the Alberta Government Personnel Administration Offices in both of these centres.

Deadline Nears for Skating Applications

The summer skating school to be held here this summer is nearing the registration deadline and is short of a number of registrations to complete the enrollment. If sufficient entries are not received by June 10th, a portion of the school will be forced to close and many children already enrolled will be disappointed. All those planning to attend must have an entry form along with a deposit in the hands of the school administrators before June 10th. Entries may be mailed, or delivered to either Mrs. Gwen Simpson, Box 269, 4404-45 Street, Drayton Valley or to Mrs. Doris Reid, Box 811, 5019 - 47 Street, Drayton Valley.

In addition to the individual lessons offered by the skating school, group instruction will be available.

These group sessions require a full enrollment of 15 to a class with two classes allowed per week. Paula Venn and Karen Maines will instruct the groups at all National Test levels as well as the Preliminary Figure level of the C.F.S.A. program. The cost of these group sessions will be considerably less than the individual lessons as there are no professional fees over and above the \$50 fee for four week's instruction.

This program is very suitable for those just beginning to figure skate and is particularly recommended for younger children. Those who have never skated will fit in with this type of instruction.

THE MARCH

My throat is dry,
My feet are sore,
Walking all day,
Is a terrible bore.

Sixty percent,
Of the money I give,
Will be given to the old,
To help them live.

Oxygen tents,
body heat,
All because of,
My poor, sore feet.

Though it is worthwhile,
It still brings pain,
And I really don't know,
If I'll do it again.

That is what I think of the
Miles for Millions. P.S., Any-
body got a bandaid?

--Toni Schmidt, Rm. 20.

MILES FOR MILLIONS

My feet are sore my legs are aking.

My back is sore and I am balking
My throat is dry and clothes is wet

All I did was swett, swett, swett.
Some of us are limping to day
We are limping because of yesterday.

--Bob Lainchbury.

Sincerely,
Olga Brown.

They all carried white primroses with ribbons to match their gowns.

Following the wedding, a reception was held in the Elks Hall, Drayton Valley with Mr. and Mrs. J.W. Brodersen and Mr. and Mrs. G. Skahl receiving. The bride's mother chose a coral coat-dress of fortrel with matching corsage of carnations accented by white accessories. The groom's

BURTONSVILLE NEWS

Rita Mykituk has been staying in Edmonton most of the past week while their wee son Rodney was in the hospital for an operation. Their daughter Shelly stayed with her aunt Della Tattersall and family at Keephills where she was close to school. Edward Tattersall is helping

Eldon Greanya with his spring seeding.

Mary Tattersall's son Roy and wife of Spruce Grove have bought themselves a new trailer and plan to move it to Fox Creek where Betty and the children can be close to Roy's work.

The additional showers of the past few days have hindered combining operations, however, we feel lucky after reports of snow in Edmonton and hail at Red Deer on May 26th.

Edges on the Figure Eight

The National Skating Tests provide sufficient scope to develop good skaters. It must be stressed however, that the success of the program depends upon the standard to which the exercises are accomplished.

The tests, with one or two exceptions are arranged in ascending order of difficulty and begin with very simple movements learned by children who are just beginning to skate. Some of the older skaters will have no trouble with the beginning tests, but it is important that the fundamentals are performed well, with special attention drawn to the essential points, e.g. erect body, soft or slightly bent skating knee, side push offs, etc.

These must all be repeated until they become second nature.

The tests are designated as to their suitability for the various types of skating. Although all tests should be practiced until they can be performed well; the standard of proficiency required, will gradually increase from the lower to the higher

tests.

From the National Test System the skater automatically continues into the Canadian Figure Skating Association (CFS) Preliminary Figure.

of the province are drawing up legislation in preparation for establishing warble control areas before this fall.

The north-eastern region extends from Lacombe north to Athabasca and west to Edson. The east-central region comprises the Drumheller, Hanna, Coronation and Oyen area. Between them, the two regions contain about a third of the province's municipalities and approximately a third of its cattle.

Petitioning for warble control areas is underway in the adjacent areas of Strathmore and Three Hills and in the St. Paul area. It is very possible that they too will enter the warble control program before the fall.

In addition, the Peace River, Spirit River, Rocky Mountain House, Brooks and Claresholm districts are showing great interest in warble control.

Jack Kems, provincial administrator of the warble control policy, says that if the present interest in warble control is anything to go by, he is optimistic that two-thirds of Alberta will have adopted the program by the fall of 1971.

Wetaskiwin was the first county in the province to establish a warble control area. In 1968 a number of farmers got together and asked their municipal council to pass legislation making it compulsory to treat all beef cattle in the county every year. The municipal council complied with their request and asked the Alberta Department of Agriculture

to provide a grant to help cover administration costs. The request was approved and the pilot project got underway. It proved so successful that many other areas became interested and have now decided to follow Wetaskiwin's example.

Under present regulations 80 per cent of the cattle producers must signify that they are in favor of warble control by signing a petition before steps can be taken to establish a warble control area. The municipal authority can then enact a by-law giving it the right to enter into an agreement with the provincial government. This agreement states that administrative costs shall be shared equally by the government and the district concerned. Special grants are also available under the agreement for publicity.

In an established warble control area any milk cows that have warbles must be treated in the spring with a back wash, and all beef cattle must be treated in the fall with a systemic insecticide. To prevent reinfestation of the area, cattle coming into it from one which does not have the program should be accompanied by a certificate stating that they have been treated.

CARD OF THANKS

We wish to thank everyone who helped make our piano recital a success. Thank you also to the students for a commendable performance and for presenting us with lovely orchid corsages. Fanny Davey, Valerie Courtney, Ruby Moltzan and Adeline Swanlund. 3p

We would like to express our sincere thanks to our neighbors and friends of Entwistle, Evansburg, and districts.

Special thanks to the committee who went to a great deal of work to make this party a success. Also to Rick Peden, his orchestra and the boys who attended bar.

Your gift will be greatly appreciated for shading the sun in the almost treeless Claresholm. Eddie and Marlyne Nelson.

Mr. and Mrs. Albert E. Thompson are leaving Drayton Valley to make their new home at Mountain View, and wish to say so-long to all who have been so kind, over the 15 years we have been here. We will always have a warm spot in our hearts for this town. A special thanks to the doctors and nurses who have done so much for us. We will miss all, and our family here. And will come back to visit if the Lord is willing. Thank you. Albert and Arley. 3p
